03/22/2010**

### Cost:

\$20.00 - please make your check payable to  
EMC/MALSCE

Getting the Most From MassGIS  
Data Using CAD

## SPEAKER

Joyce A. Husseini, LEED AP O+M  
GIS Specialist  
Nitsch Engineering

Joyce has over 30 years of experience in the engineering and surveying fields. She has been involved in the technology end of the engineering business from the early use of mainframe CADD to the most recent advances in video imaging, communications technology, and GIS. As the GIS Specialist at Nitsch Engineering, Joyce coordinates the integration of GIS into project deliverables and manages system-wide GIS issues.

Joyce will discuss:

How to use MassGIS data, and other public access GIS data within your survey CAD Drawings.

Various methods of inserting digital orthophotos into CAD and how to work with shapefiles and their associated attribute information.

Ortho-photos, Google Earth, Google Earth Pro, etc. and what surveyors can do with them.

Geospatial coordinates and why we need to work in Lat/Long.

**MASSACHUSETTS ASSOCIATION OF LAND SURVEYORS AND CIVIL ENGINEERS**

The Engineering Center  
One Walnut Street  
Boston, MA 02108-3616
